

Name: \_\_\_\_\_

Class: \_\_\_\_\_

Due Date: \_\_\_\_\_

**Geography Unit Test**

**Monday November 5, 2018**

This test will consist of everything we studied since the beginning of this unit. When studying be sure to review your notes, handouts, and write out questions to bring to the teacher if anything is confusing. Be able to **identify and/or define**:

**Key Terms:**

- Latitude Lines
- Longitude Lines
- Equator
- Prime Meridian
- Cardinal Directions
- Intermediate directions
- Compass Rose
- Oral history
- archaeologists
- map key
- map symbol
- scale
- Geography
- Northern Hemisphere
- Southern Hemisphere
- Western Hemisphere
- Eastern Hemisphere
- Climate
- Elevation map
- Physical map
- Political map
- Historical map
- Values/culture

**Be able to answer and explain:**

1. How the study of climate helps us to understand the way people live?
2. Why it's important to know the difference between cardinal directions and intermediate directions?
3. How might people's values or culture determine the way they live? (\*Think about their traditions and what they celebrate)
4. Why are archeologists important to help us learn about our past?
